

Community Sale Requirements for Poultry and Ratites

Poultry means Chickens, Turkeys, Waterfowl, and Game Birds

Identification

- All poultry and ratites, except baby poultry, must be individually identified with a leg or wing band with a number on the band. The band may also include other letters such as names/initials.
 - Hatching eggs and young poultry that are too small to band can be sold as a group if the Hatchery Permit number or National Poultry Improvement Plan (NPIP) number is written on the cage, box or enclosure.

Poultry Disease Requirements

- All hatching eggs, poultry and ratites must originate from a hatchery or breeding flock that is NPIP Pullorum-Typhoid (PT) Clean or be negative to a pullorum-typhoid test within 30 days prior to the sale.
 - Turkeys cannot be tested same day. Blood must be sent to an approved lab prior to sale.
- All hatching eggs, poultry and ratites must be accompanied by a certificate or test chart that shows compliance with the requirements above. Examples include: pullorum-typhoid test report (Rapid Whole Blood Test Reporting Form or Laboratory Report), Hatchery Permit Card, NPIP VS FORM 9-2, and NPIP VS FORM 9-3*
- If a test chart is used to demonstrate compliance, the band number on the bird must match the test chart.
